

Mark W. Anderson

**President and Chief Executive Officer
Pro Mach, Inc.**

Mark W. Anderson is President and CEO of Pro Mach, a leading provider of integrated packaging products and solutions. With more than 20 years experience in global manufacturing Mr. Anderson has earned a strong reputation for leading rapidly growing organizations, improving operations, and implementing lean manufacturing processes.

Mr. Anderson provides strategic leadership for Pro Mach and manages overall operations for Pro Mach's three business units and related divisions—Primary Packaging, End-Of-Line Packaging and Identification and Tracking. He also guides Pro Mach's initiatives for delivering excellence in product development, customer service and distribution. Along with other members of the senior management team, Mr. Anderson is focused on strengthening Pro Mach's position as the leader in packaging machinery value for its customers.

Before joining Pro Mach, Mr. Anderson served as Vice President and General Manager of Tyler Refrigeration, a division of Carrier Corporation. At Tyler, he was instrumental in rapidly increasing sales over a three year period and continually improving operations through lean manufacturing processes. Before that he served as Vice President, Operations for Cooper Crouse-Hinds, a leading provider of commercial electrical products. Mr. Anderson began his career as a Manufacturing and Systems engineer at Caterpillar, Inc. and has held several senior engineering and management positions in the electrical products and switchgear industries.

Mr. Anderson earned his M.B.A and Masters in Manufacturing degrees from Northwestern University's J.L. Kellogg Graduate School of Management and Robert R. McCormick School of Engineering and Applied Sciences. He earned his Bachelor of Science degree in Industrial Engineering from the University of Nebraska-Lincoln.
